

Sirs: Please reject the NAB's Petition 04-160 to stop XM Satellite from providing Instant Weather and Traffic as part of the subscription service I pay for.

It is such a pleasure to find the Traffic and Weather for local areas without having to listen to a lot of commercials and other programming I don't want to hear.

It is also a pleasure to not have to find the information I want at six minutes, 8 minutes or some other fixed time. I am paying for XM Satellite and They should be able to provide whatever service they can convince me to pay for.

NAB is a self serving organization that serves only the interest of the Broadcasters and would gladly restrict my ability to hear what I want, and am willing to pay for, if it served their purpose.

Robert Carlson
